Indian Peace Medals

We feel fortunate to offer the following selection of Indian Peace Medals to the numismatic public. Not since the 1920's has a group of silver originals this large been offered for sale by auction. The majority of surviving Peace medals are in museums. Due to their rarity and ever increasing value, few numismatists can hope to approach a comprehensive collection. Most of the following medals have recorded pedigrees which enhance their current and future value.

We expect highly competitive bidding and only have used estimates as a modest guide.

HOT AIR PAGE

This year the SIN Convention has a new location just south of The Forum and Hollywood Park Track eight minutes from the Los Angeles International Airport. For those flying in, there is free shuttle service from the airport. The bourse space is larger and there is plenty of free parking. This Auction with the Convention offers more diverse material than any other past SIN Sale. The SIN Convention Committee has put in long hours organizing this show. We expect this to be the best SIN Convention yet.

Our 1978 Auction Schedule has now been finalized. We will have the sale at the International Numismatic Society (INS) Convention in Washington, D.C. in late September. We will be accepting consignments through mid-June. Consignment Lots valued at \$100 per item or greater will receive preference. We are particularly looking for ancients, gold, paper, world crowns and minors (especially early Scandinavian, Greek, Russian, and Venezuelan).

In late November, we will hold an Auction in conjunction with the Michigan State Numismatic Society Convention in Dearborn. We plan on presenting a diverse sale including nice U.S. and Canadian material. Other sales may be held during this year. Generally we will not be listing lots with values less than \$35.

We would like to make a few comments regarding consignments. Each auction, we have to return large groupings of mediocre coins to consignors. Common material, whether singly or in bulk, is readily available through numerous sources. This type of material requires as much or more space in the catalog as unusual items and commonly receives only wholesale bids. Auctions provide excellent outlets for unusual and scarce to rare material, particularly in better grades. We feel that we can obtain excellent prices for your consignments if they are of this nature. Please write for our consignment terms if you have quality coins to sell. Our rates are as low as 15% on many types of material. Our minimum commission on future sales is \$7.50 per lot.

We have made a slight change in format beginning in this catalog. When we found we had only one or two inexpensive lots from a country we have included these in the Miscellaneous section rather than under a major heading in the main section of the catalog. So please check the last section carefully. Many of the books listed in our last two book lists are still available, so feel free to enclose a book order with your bid sheet.
